

To subscribers within the county, and \$1.50 a year to subscribers living outside the county.

A noted pianist declares that a woman with a long thumb will have her own way. He is right, and so will a short-thumbed woman.

Gold is known to exist in nine of the Philippines. The fact that so many of the islands have not been prospected will be a great attraction for adventurous capitalists.

In Prussia 413 school children under 15 years of age have committed suicide within the space of ten years. Three hundred and thirty-seven of them were boys and 76 girls.

The Americans are the greatest travelers in the world. In the United States a train runs 13 miles annually for every man, woman and child in the country; in England, 8; in Germany, 4½; in Belgium, 2½.

A New Jersey man, who is suing for divorce, says in his petition that his wife has made only one lapise pudding during all of their married life. This is a pretty strong case, but the judge doesn't like the wife's herself.

Ones is the greatest producing and exporting nation in the world. Hitherto we have held at least second place to Great Britain. This year, with our exports amounting to \$1,250,000,000, we leave even Great Britain behind by more than \$60,000,000.

Is Gen. Flower, of New York, content to wait until the 25th of January, when Judge's asked if he meant to enroll under Gen. Booth's banner Mr. Flower bluntly replied: "No, sir; but I do belong to the great Christian army, and I don't care what flag they march under as long as they are bound to the cross."

There is an impending famine in Russia, the czar has already given \$500,000 to the relief fund, and it is now said that America will soon be asked to give from her plentiful stores. The world knows that America is as great in charity as she is in war, and when famine strikes all countries turn their eyes toward the United States.

There are two curious coincidences in connection with the Mary Washington, a hospital ship at Fredericksburg, Va., ground for which has been broken. George Washington, who was born on Washington's birthday, drew the plan, and George Washington, who also first saw the light on February 22, will superintend the work of building.

The official records of the rebellion, comprising 111 volumes with an aggregate of 118,216 pages, have just been completed. The work of the compilation and publication of these records has required 24 years, and it is now said that the records are the most expensive series of books ever published. Up to June 20 there had been expended on the work \$2,025,085.50, or something like \$425,000 per volume.

Mrs. Harriet R. P. Stanford, of Cottage City, Mass., has presented to the government the flag carried by John Paul Jones' frigate, the Ben Bonne Richard, during her famous battle with the British frigate, the Phoenix, on September 23, 1779. Mrs. Stanford has documentary evidence to the fact that this flag is the first stars and stripes ever hoisted over an American man-of-war and that it was the first ever saluted by a foreign naval power.

The Garlon Brothers, of England, are agricultural scientists likely to make a figure in the world. They have discovered the simple life wheat by treating it with an Asian variety, increased a barley head with two rows to six rows, crossed English and Japanese oats until 50 pounds to the bushel is the yield, and not only crossed white and red clover, but made red clover a perennial. The benefactor who produced two blades of grass where one grew before is destined by these experiments.

During the recent blizzard in the east, which blocked railroads and suspended all traffic for days, Rev. George R. Cutten walked from his parsonage in Monticello, Conn., to New Haven, where he delivered an address before 800 Yale students on "Giving as an Aid to Christian Growth." Five miles of the walk was through snow drifts which teamsters had found an absolute barrier against passage. Rev. Cutten, it must be remembered, played regular football on the Yale football team this season.

In her annual report, Miss Reel, superintendent of industrial education, makes a strong plea for the industrial feature of educational work among the Indians, and says that the rising generation may be made useful members of society by means of practical methods adapted to their needs and capacities. It now costs Uncle Sam upwards of \$2,000,000 a year to take care of his Indians, and that the coming generation of red men may be self-supporting citizens is a matter of great importance.

The trouble with Lucretia, who murdered the Austrian queen, has been stated in simple language by the British Medical Journal, which says it is due to some disease of infancy, perhaps an encephalomyelitis or lateral sclerosis, from which complete recovery never took place. Lucretia is a type of the asymmetric degeneration.

The trouble with these degeneration, which we have thousands in this country, is that they are not recognized as asymmetrical until they get in their ready work. What is needed by the police is a degenerationometer.

S. B. Aggers has discovered near Madison, Wyo., a perfect petrification, in a good state of preservation, of a monster saurian (lizard), which measures 180 feet in length. The body is about 16 feet long, and Mr. Aggers says a section 50 feet long can be taken out as a whole. The fossil lies close to the top of the ground, and the head tapers to the point of the nose. This is considered a very important discovery, and for the well-known scientist, the fact that Wyoming is the grandest par excellence of the geological annals of the past geological epochs.

As Congress begins on the Spanish-American war is very interesting. One considered to be the American side of our peace commissioners, that though the (English) is a Spanish-American, he thought our war was justifiable and our cause was right.

FARMINGTON, ST. FRANCOIS CO., MO., THURSDAY, DECEMBER 29, 1898.

NUMBER 52.

## A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

FIFTY-FIFTH CONGRESS.

The house resolution providing for adjournment until January 21 today was adopted by the United States senate on the 20th. A protest was received from ex-Queen Liliuokalani against the appropriation of the crown lands of Hawaii by the United States. Senator Teller (Col.) spoke in favor of expansion. In the house the conference report on the army and navy deficiency bill was adopted and the agricultural appropriation bill (\$3,698,322) was passed. Mr. Williams (Miss.) in a speech opposed the annexation of the Philippines. The bill increasing the regular army to 100,000 men was favorably reported.

A bill to provide a government for the territory of Hawaii was reported favorably to the United States senate on the 20th and a few private pension bills were passed, after which an adjournment was taken to January 4. In the house a resolution directing an investigation of the right of the members of the volunteer in the Spanish-American war to state in the January 4.

FROM WASHINGTON.

Preliminary orders were issued by Adj. Gen. Corbin providing for the muster out 20,000 volunteers in the next month. Maj. E. G. Bathore, of Ohio, will have charge of the postal service in Cuba.

The president appointed Ethan A. Hitchcock, of St. Louis, Mo., now ambassador to Russia, as secretary of the interior.

Very encouraging reports of the condition of affairs in Manila and Porto Rico reached the war department from the officers commanding the troops in those departments.

An army bill prepared by the house military committee provides for a standing army of 30,000 men, with an auxiliary force of 50,000 for present exigencies.

In his report Robert B. Porter, special commissioner for the United States to Cuba and Porto Rico, says that the military government is running smoothly, and that San Juan is rapidly becoming a healthy city.

The government has decided to muster out all the volunteers in the Philippines as fast as they can be replaced.

It is shown by the preliminary report of the Nicaragua canal commission that it will require about \$135,000,000 to build the canal.

A counterfeit one-dollar silver certificate has been discovered. It is of the series of 1896, Bruce, register, Roberts, treasurer.

Great efforts are being made to put enough American troops in Cuba to meet any call upon them through the speedy evacuation of the Spanish garrisons.

It has been determined by the government to hold the American flag over Wake Island, the westernmost of the Hawaiian group.

THE EAST.

In New York, Brooklyn, Philadelphia and other eastern cities many deaths from grip were reported.

In Boston Miss Margaret Dodge, a prominent literary worker, was found dead in a pew in a church. She had taken poison.

A company in Pittsburgh has received a contract from the United States government to re-equip Morris castle in Havana.

During the week ended on the 25th the exchanges at the leading clearing houses in the United States aggregated \$1,473,630,022, against \$1,691,765,298 the previous week. The increase compared with the corresponding week in 1897 was 23.7.

In the United States there were 255 business failures in the seven days ended on the 25th, against 261 the week previous and 262 in the corresponding period of 1897.

Dispatches show that more business is being done now by the merchants and manufacturers of the United States than at any previous time in the history of the country.

With Admiral Sampson and wife on board the United States cruiser New York from Havana arrived in New York.

From Paris the American liner St. Louis arrived in New York, having on board the United States commissioner, who concluded the treaty of peace with Spain.

WEST AND SOUTH.

In Topeka the Kansas legislature met in extra session and heard Gov. Leedy's message. He urged legislation affecting railroads, telegraph and express companies.

## MISSOURI STATE NEWS.

Killed His Wife and Then Himself. William Lowenstein and wife were found dead at their home, one mile west of Jasper City, Jasper county. The coroner's jury found a verdict to the effect that, after killing his wife, Lowenstein committed suicide. Evidence of a struggle were apparent, and the surmise is that the conflict lasted some time, as she was bruised and bruised. He was known as a most eccentric, and was said to have been madly jealous of his wife, of whom he often talked about to neighbors. Deceased was in his younger days, a miner in the zinc mines of Germany. He served in the civil war, and had a pension of \$40. When he first located in Jasper county, over thirty years ago, he bought a farm from a lawyer named Lon Cameron, who had no title to the land, and he was killed and buried. He was known as a most eccentric, and was said to have been madly jealous of his wife, of whom he often talked about to neighbors. Deceased was in his younger days, a miner in the zinc mines of Germany. He served in the civil war, and had a pension of \$40.
